K-12 Webinar Series: Leading the Digital Evolution

Making Digital Content Discoverable

in partnership with CoSN, the Consortium for School Networking

Co-presented by:
Who We Are & What We Do

Better Learning from Better Learning Technology™

• Effective collaboration of global leaders means getting to the future sooner with sustainable results

• Seamless plug & play creates better user experiences; enables educational insight across products; reduces complexity & cost

• Agile open architecture & extensive ecosystem enables experimentation, flexibility & efficiency in a time of rapid change

How Much Better? 10-1000x Better
Thank You To Our Guests!

Maurice Draggon,
Orange County Public Schools (FL)

Darlene Rankin,
Katy Independent School District (TX)

K-12 Playbook:
Resources to Help Districts Transition to a Fully Integrated Digital Ecosystem

The K-12 Playbook is an easy-to-use reference and resource center for K-12 administration, digital curriculum teams, and IT leaders who are working towards a fully integrated digital ecosystem to enable student-centered learning. Created by IMS Global K-12 members, these resources are designed to help districts of all sizes shorten the learning curve around the adoption of IMS Interoperability standards to create a plug and play integrated teaching and learning ecosystem.

K-12 Webinar Series
In partnership with CoSN and the Learning Counsel, IMS Global is proud to host an ongoing webinar series to share how districts are evolving toward student-centered learning based on open, plug-and-play technologies and integrated curriculum architecture.

Getting Started
Case studies, articles, videos and much more to help districts of all sizes begin to transition to a fully integrated digital teaching and learning ecosystem.

Leadership & Collaboration
Collaboration among IMS Global members is the catalyst to accelerating adoption of a plug and play digital learning ecosystem. Learn more about how districts are leading the revolution and how to join the collaboration to help create the future of education.

Procurement Resources
Ensuring that your educational technology tools are IMS Certified is the best way to establish a plug and play ecosystem. IMS Global has developed RFP language and checklists that districts can use when procuring digital platforms, apps and tools.
How Does IMS Enable Better Digital Learning Experiences?

**Seamless plug & play integration**
- Creates better user experiences & enables greater educational insight.

**Agile open architecture & extensive ecosystem**
- Enables flexibility, efficiency & choice.

**Effective member-based collaboration**
- Means getting to the future sooner with sustainable progress.
