

**Digital credentials** are fast becoming a global currency for skills and competencies. They have the power to change the way we think about and represent lifelong learning, experiences, and achievements. IMS Global Learning Consortium is leading the evolution of the Open Badges standard and is committed to furthering the adoption, integration, and portability of digital credentials within and across institutions, alternative educational opportunities, and employment centers.

**CONNECT** with the Open Badges community to help build and sustain the future digital credentials ecosystem. Here are several ways you or your organization can get involved.
